Majority of Canadians strongly support or somewhat support legislation to create a presumption of equal parenting in child custody cases

2017-1061 Equal Parenting Summary - DRAFT

submitted by Nanos to the Canadian Association for Equality, September 2017 (Submission 2017-1061)

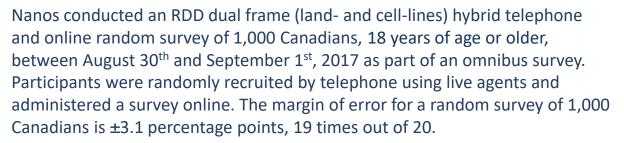

Summary

There is strong support among Canadians with regards to equal parenting legislation in child custody cases.

 Over two in three Canadians strongly support or somewhat support legislation to create a presumption of equal parenting in child custody cases – When asked their support for federal and provincial legislation to create a presumption of equal parenting in child custody cases, a majority of Canadians say they strongly support (35%) or somewhat support (35%) this, while nine per cent somewhat oppose and four per cent strongly oppose it. Seventeen per cent are unsure.

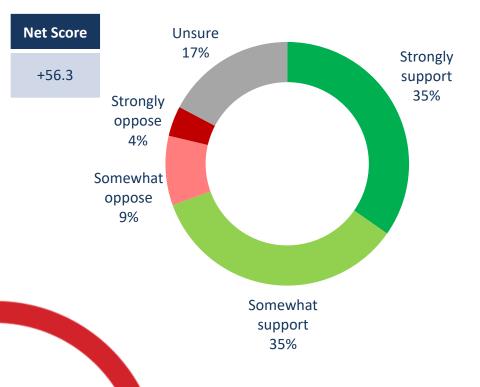

This study was commissioned by the Canadian Association for Equality.

Support for legislation to create presumption of equal parenting

Source: Nanos Research, RDD dual frame hybrid telephone and online random survey, August 30th to September 1st, 2017, n=1000, accurate 3.1 percentage points plus or minus, 19 times out of 20.

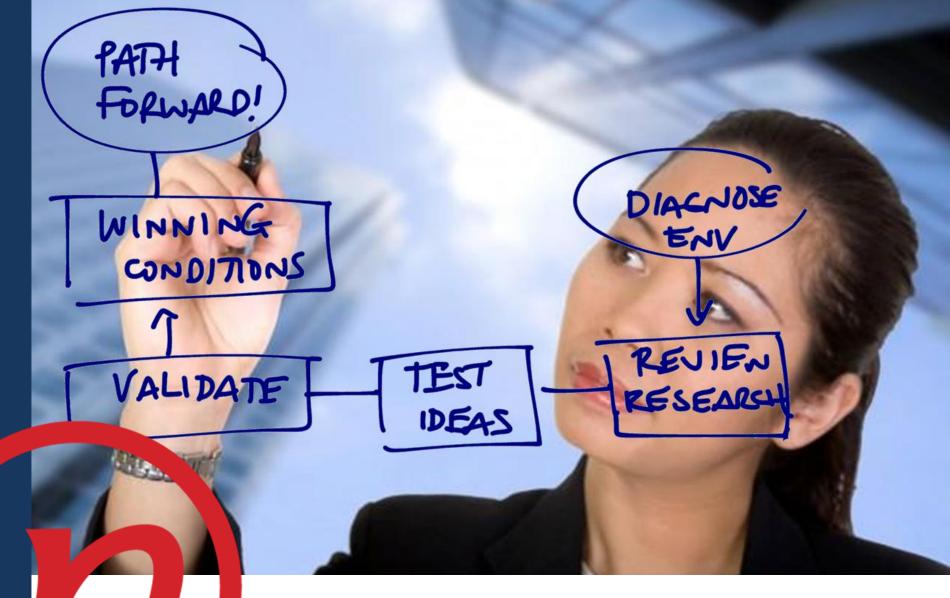

Subgroups	Strongly support/ Somewhat support
Atlantic (n=100)	74.7%
Quebec (n=250	66.4%
Ontario (n=300)	70.9%
Prairies (n=200)	69.2%
British Columbia (n=150)	68.8%
Male (n=478)	77.7%
Female (n=522)	61.6%
18 to 34 (n=242)	67.8%
35 to 54 (n=358)	72.2%
55 plus (n=400)	68.4%

*Note: Charts may not add up to 100 due to rounding

QUESTION – Do you strongly support, somewhat support, somewhat oppose or strongly oppose federal and provincial legislation to create a presumption of equal parenting in child custody cases?

Methodology

Nanos conducted an RDD dual frame (land- and cell-lines) random telephone survey of 1,000 Canadians, 18 years of age or older, between August 30th and September 1st, 2017 as part of an omnibus survey. Participants were randomly recruited by telephone using live agents and administered a survey. The sample is geographically stratified to be representative of Canada.

Individuals were randomly called using random digit dialling with a maximum of five call backs.

The margin of error for a random survey of 1,000 Canadians is ±3.1 percentage points, 19 times out of 20.

The research was commissioned by the Canadian Association for Equality (CAFE).

Note: Charts may not add up to 100 due to rounding.

About Nanos

Nanos is one of North America's most trusted research and strategy organizations. Our team of professionals is regularly called upon by senior executives to deliver superior intelligence and market advantage whether it be helping to chart a path forward, managing a reputation or brand risk or understanding the trends that drive success. Services range from traditional telephone surveys, through to elite in-depth interviews, online research and focus groups. Nanos clients range from Fortune 500 companies through to leading advocacy groups interested in understanding and shaping the public landscape. Whether it is understanding your brand or reputation, customer needs and satisfaction, engaging employees or testing new ads or products, Nanos provides insight you can trust.
